# Forward Looking Statements

This presentation contains "forward-looking statements". These forward-looking statements are made as of the date of this presentation and Kodiak Copper Corp. does not intend, and does not assume any obligation, to update these forward-looking statements. Forward-looking statements include, but are not limited to, statements with respect to the timing and amount of estimated future exploration, success of exploration activities, expenditures, permitting, and requirements for additional capital and access to data. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, risks related to actual results of current exploration activities; changes in project parameters as plans continue to be refined; the ability to enter into joint ventures or to acquire or dispose of property interests; future prices of mineral resources; accidents, labour disputes and other risks of the mining industry; ability to obtain financing; and delays in obtaining governmental approvals or financing.

This presentation does not constitute an offer to sell or solicitation of an offer to buy any securities Kodiak Copper Corp.

Figures may not sum due to rounding. Decimal figures do not indicate added level of precision. Mt=million tonnes

Historic information reported herein was obtained from publicly available sources and industry reports. Kodiak believes this information to be from reliable sources using acceptable industry practices at the time, but the Company has not independently verified and cannot guarantee the accuracy of the historic information disclosed, therefore readers should use caution in placing reliance on such information. Management also cautions that Kodiak has not performed any exploration on the MPD Project to date. Comparisons to adjacent or similar mineral properties, deposits and mines are provided for information purposes only. Kodiak has no interest in, or rights to explore or mine any such properties and references to other deposits reported herein are not indicative of deposits or results obtained on the Company's properties.

Dave Skelton, P.Geol., is the Qualified Person as defined by NI 43-101 standards responsible for reviewing the technical content of this presentation.

# A Powerful Story

**Proven team,  
highly focused on  
shareholder returns**

**World-class  
projects in the  
right jurisdictions**

**Strong capital  
structure and  
shareholders**

**Copper – critical  
mineral with supply  
crunch looming**

# Why Invest in Kodiak Copper Now?

Focused on **effective, responsible copper exploration – critical metal for the energy transition and AI**, supply deficit looming due to the lack of new discoveries

**Management team with strong track record**, member of well-respected Discovery Group – founder and chairman Chris Taylor generated \$2bn for shareholders with sister company Great Bear

Projects in **existing mining districts in North America – low risk, low cost regions with excellent infrastructure** where mines can be permitted and built

Kodiak outlined **major porphyry district at MPD copper-gold project in Southern British Columbia** – achieved critical mass through consolidation and large drill campaigns (~90,000m)

**Initial resource estimate for four of seven zones in June 2025 – already demonstrates potential for major mine**; remaining three zones in Q4 will add to the resource estimate

**Significant opportunity for resource growth and additional discoveries** – all resource zones open for extension and ~20 additional target areas on property

**Solid capital structure** – \$4M cash, 85.8M shares outstanding, Teck Resources and Konwave are major shareholders

# Track Record of Discovery & Shareholder Return

**Christopher Taylor** M.Sc.

**Chairman**

Mining entrepreneur and founder of Kodiak Copper. With more than 20 years of structural and economic geology experience with both mid-tier producer and junior exploration companies, including extensive experience in copper porphyry exploration. Founder and CEO & President of Great Bear Resources, which made a district-scale gold discovery in Canada and was taken over by Kinross Gold for \$1.8bn, a discovery success recognized industry wide.

**Claudia Tornquist** M.Eng, MBA

**President & CEO, Director**

Formerly GM at Rio Tinto working with Rio Tinto's copper operations. Also held the position of EVP Business Development for the streaming company Sandstorm Gold. Director of American Lithium & Silver One Resources, former director of Kennady Diamonds, leading the \$176m sale of the company to Mountain Province as chair of the special committee of the board.

**John Robins**

**Advisor**

An award-winning prospector with over 40 years experience in professional geology, John is a steward of the junior mining industry and the co-founder and principal Discovery Group. His entrepreneurship has created over \$2.6 billion in M&A activity and generated over \$1 billion in direct and indirect mineral expenditures.

# Board, Advisors, Management (cont'd)

## Board Members & Advisors

**Steven Krause, CPA, CA, ICD.D - Independent Director**  
CFO of Viva Gold Corp and former CFO of Bear Creek Mining. Former chairman of Luna Gold, where he led the \$360m merger with JDL Gold to form Trek Mining

**Chad Ulansky, B.Sc. P.Geo - Independent Director**  
Extensive exploration experience in precious and base metals that includes the original Ekati diamond discovery

**Lana Eagle, CDI.D - Independent Director**  
Indigenous relations strategist, speaker and consultant. Board Member of PDAC and Vice Chair of Geoscience BC. Member of the Whitecap Dakota First Nation

**Kevin Tomlinson, HBS, MSc. - Advisor**  
Structural geologist & investment banker, 35 years in exploration, development & financing of mining companies globally. Chairman of Bellville Gold, former chairman of Cardinal Resources

**Jim Paterson, B.Comm - Advisor**  
Principal of Discovery Group, 25+ years of corporate experience with TSXV companies including Northern Empire, Great Bear Royalties, Kaminak Gold, ValOre Metals, K2 Gold,

**Peter Holbek, M.Sc., P.Geo - Advisor**  
45+ years experience in geology, base and precious-metal mineral exploration, resource estimation & mine development. most recently VP Exploration at Copper Mountain Mining Corp

**Carolyn Clark Loder, MLS-Indian Law, MA, BA- Advisor**  
30+ years of senior professional experience in the public & private sectors in indigenous relations, mineral rights management and land management

## Management

**Dave Skelton, B.Sc., P.Geol. - VP Exploration**  
35+ years of a diverse background from exploration to mine development, early focused on the design and implementation of exploration programs

**Nancy Curry, BA - VP Corporate Development**  
Over 25 years of corporate communications and development experience. Nominated twice for Best Investor Relations of a TSX-V company by IR Magazine

**Emily McNie, B.Sc. – Director Operations & Sustainability**  
Over 10 years experience including project management, technical and regulatory reporting, permitting, environmental compliance and community relations

**Baykan Aksu, M.Sc. - Senior Project Geologist**  
Over 10 years of diverse experience in geothermal and mineral exploration, spanning all phases of the mineral exploration, from greenfield fieldwork to advanced stage geological modeling.

**Mark Laycock, CPA, CGA – CFO & Corporate Secretary**  
CPA, CGA with over 15 years of accounting and finance experience in both private and public companies listed on the Canadian and U.S. stock exchanges

**Jeff Ward, B.Sc., P.Geo.(BC,AB) – GM Exploration**  
Precious and base metals exploration in Canada for 35+ years with Kivalliq Energy, Corona Corp, Ashton Mining, Stornoway Diamonds

# MPD Copper-Gold Porphyry Project Is Located in World-Class Mining District

- **Large, 100% owned land package** in Southern British Columbia
- **Established mining region** with excellent infrastructure
- **Proven, mineral producing belt** in the Quesnel terrane with copper mines nearby, some with similar geology to MPD
- **Grades of neighboring copper mines:** Copper Mountain 0.25% Cu & 0.12g/t Au\*, Highland Valley 0.30% Cu & 0.01% Mo\*
- **Low-risk jurisdiction where mines are getting built**, high standards for environmental and community work

Copper Mountain Mine

# Excellent Accessibility and Infrastructure Minimizes Exploration Cost and Enhances Future Economic Potential of MPD

- **Year-round accessibility and exploration**
- **Only minutes from existing highways** – Hwy 97C & 5A
- **Active logging area, network of existing roads on property**
- **Local workforce** in nearby towns of Merritt and Princeton
- **Availability of low-cost grid power** – over 98% of electricity in British Columbia is renewable\*
- **Availability of water**

\*<https://news.gov.bc.ca/releases>

# MPD Project Consolidated from Multiple Properties to Create District-Scale Opportunity with Critical Mass

- **Large, 344 km<sup>2</sup> property** consolidated by Kodiak - extends approx. 40km north to south
- **Extensive historic drilling but never explored as single project**, always on smaller land packages
- Good historic drill results over large footprint indicates **potential for large copper-gold porphyry district**
- **518 drill holes (~73,000m)** completed since the 60's by numerous operators

# Systematic Exploration to Unlock MPD's Potential – Seven Years of Drilling (~90,000m) Leading to Initial Resource Estimate in 2025

# Large Porphyry District with Multiple Mineralized Zones - Potential to Become a Major Copper-Gold Mine

- **Seven substantial zones of copper-gold mineralization outlined to date:** Gate, Man, Ketchan, Dillard, West, Adit & South
- **Significant high-grade mineralization** at several zones
- **Mineralization from surface** and can exceed 900m depth
- **All mineralized zones still open**, most in multiple directions – room for growth
- **~20 additional target areas on property** – significant potential for more discoveries

# Initial Mineral Resource Estimate for First Four of Seven Mineralized Zones Already Shows Considerable Scale

- Initial MRE delivered in two parts: part 1 (4 zones) in June 2025, part 2 (3 zones) in Q4/ 2025
- Part 1\* - **sizable copper and gold-rich initial MRE delineated** for Gate, Ketchan, Man, Dillard deposits); all open pit
  - Indicated: 56.4 mt @ 0.42% CuEq for **390 Mlb Cu & 0.25 Moz Au**
  - Inferred: 240.7 mt @ 0.33% CuEq for **1,290 Mlb Cu & 0.97 Moz Au**

\* news release 25/6/25

The values in the COG sensitivity cases are for comparison purposes only and should not be considered Mineral Resources.

News Release 2025-06-25

## Part 2 of Initial Resource Estimate in Q4 - Will Add Further Size

- **Part 2 of resource estimate will include West, Adit and South Zones**; currently being drilled as part of 2025 exploration program
- Results to be incorporated into full Initial Resource estimate in Q4; **will make a significant contribution**
- Kodiak's and historic drilling intersected **near-surface, high-grade mineralization** at these zones

# Significant Potential for Future Resource Growth

- All four deposits of initial MRE are **still open**, expansion potential within and beyond the pit shells
- Three further mineralized zones that will form part 2 of initial MRE also **still open**, in multiple directions and at depth
- **Potential to discover more mineralized zones** - 20 additional targets

Unconstrained Mineralized Block Model @ 0.12% Cut-off – Ketchan & Gate deposits

# West Zone - Discovery of High-grade Porphyry Mineralization From Surface to Substantial Depth, Open to Extension

- **Confirmed mineralization from surface and extending well below historic drilling; open to extension**
- **Best drill hole:** 0.58% CuEq\* over 254m, within 0.27% CuEq\* over 941m from bedrock surface
- **Shallow high-grade copper** assaying 1.26% CuEq\* over 39m, within 0.39% CuEq\* over 198m
- **Hydrothermal breccias** with copper mineralized clasts, suggesting additional mineralization at depth

\* news release 17/10/23

# Adit Zone – Near-Surface, High-Grade Porphyry Centre in Large System That Spans Several Mineralized Zones

- Kodiak's drilling confirms and extends historically drilled high-grade mineralization near surface
- Best drill hole ever drilled at Adit: 0.76% CuEq Over 156 m, within 0.46% CuEq Over 357 m
- Data suggests that the South, Mid, Adit & 1516 Zones may be part of much larger system that comprises all zones

\* news release 10/9/24

# Significant Exploration Upside and Potential for More Discoveries

- **Discovery potential across entire 344km<sup>2</sup> MPD property**, highly prospective
- **~20 additional target areas identified to date** – significant potential for more discoveries
- **Ongoing exploration and advancement of targets** in addition to resource work

Scan for more  
information

# Contact Information

---

1020 - 800 West Pender  
Street, Vancouver, BC,

# ESG Plays a Key Role in Value Creation

## Environmental Stewardship

- Environmental & Wildlife Program includes migratory/nesting bird & Species at Risk surveys, invasive species surveys and wildlife observations
- Water protection measures and baseline water quality sampling and flow rate measurements in work areas
- Progressive reclamation of new work sites and remediation of historic sites

## Social Engagement

- Kodiak engages directly with Indigenous Peoples to share information, ensure transparency and build relationships
- Heritage surveys are conducted by local First Nations at all proposed work sites prior to any ground disturbance
- Employment and business opportunities, local sourcing of supplies, services and staff
- The Company's health and safety management program reflects industry best practices

## Governance Best Practices

- Corporate policies and board committee mandates to promote the highest moral, legal and ethical standards and conduct within Kodiak
- Governance structures ensure accountability, responsibility, compliance with applicable laws and regulations, and ethical business practices

# Mohave – Situated in Prolific Arizona Mining District, Similarities to Bagdad Mine

- **Copper-molybdenum-silver porphyry project** with sizeable footprint
- In **Mohave County, Arizona**, 33km west of **Freeport's Bagdad mine**; geologically and structurally similar
- **Road Access, Infrastructure, and Year-Round Exploration**
- Historic drilling identified **porphyry mineralization**
- **Very little recent drilling** - historically defined targets, geophysical and geochemical anomalies remain untested
- Magnetics define **sizeable donut-type feature**, characteristic of porphyry deposits
- **Extensive rock and soil mineralization over large area** (2.5 x 2.5 km) with coincident IP anomaly
- **Drill-ready**
