Condensed Interim Consolidated Statements of Cash Flows

December 31, 2025

(Unaudited – Prepared by Management -Expressed in Canadian Dollars)

### **1. NATURE OF OPERATIONS AND ABILITY TO CONTINUE AS A GOING CONCERN**

Kodiak Copper Corp. (“Kodiak” or the “Company”) was incorporated under the laws of the Province of British Columbia on January 12, 1987. The Company’s common shares are trading as a mining issuer on Tier 2 of the TSX Venture Exchange under the trading symbol KDK.

The Company’s activities consist of the exploration and development of base metals throughout North America. The head office and principal address of the Company are located at 1020 – 800 West Pender Street, Vancouver, BC V6C 2V6.

As the Company is in the exploration stage, the recoverability of amounts shown for exploration and evaluation assets and the Company’s ability to continue as a going concern is dependent upon the discovery of economically recoverable reserves, continuation of the Company’s interest in the underlying resource claims, the ability of the Company to obtain necessary financing to complete their development and upon future profitable production or proceeds from the disposition thereof. The amounts shown as exploration and evaluation assets represent net costs to date, less amounts amortized and/or written-off, and do not necessarily represent present or future values.

The Company incurred a loss of \$459,712 during the three months ended December 31, 2025, and, as of that date, the accumulated deficit was \$63,048,029. The Company expects to incur future losses in the development of its business. While these consolidated financial statements have been prepared with the assumption that the Company will be able to meet its obligations and continue its operations for its next fiscal year, the aforementioned conditions indicate the existence of material uncertainty which may cast significant doubt on the Company’s ability to continue as a going concern. Realization values may be substantially different from carrying values as shown and these consolidated financial statements do not give effect to adjustments that would be necessary if the Company were not to continue as a going concern.

#### Statement of Compliance

These condensed interim consolidated financial statements for the three months ended December 31, 2025, were prepared in accordance with IFRS Accounting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) in effect at December 31, 2025. The Company has elected to present the statements of loss and comprehensive loss in a single statement. The condensed interim consolidated financial statements of the Company for the three months ended December 31, 2025 (including comparatives) have been prepared by management, reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on February 25, 2026.

### **2. BASIS OF PREPARATION**

#### Critical judgments in applying accounting policies

The preparation of these condensed interim consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed interim consolidated financial statements and reported amounts of expenses during the year. Actual results could differ from these estimates.

These condensed interim consolidated financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the consolidated financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

### 3. MATERIAL ACCOUNTING POLICIES

#### *New standards, interpretations and amendments adopted by the Company*

The accounting policies applied in the preparation of these condensed interim financial statements are consistent with those applied and disclosed in the Company's audited financial statements for the years ended September 30, 2025 and 2024.

### 4. RECLAMATION BONDS

	December 31, 2025	September 30, 2025
MPD	\$ 446,000	\$ 446,000
Mohave	99,286	99,286
Kahuna	40,000	40,000
	\$ 585,286	\$ 585,286

The MPD portion of the reclamation bonds is a \$446,000 security deposit paid to the Ministry of Mining and Critical Minerals of British Columbia as a part of the permit application. During the year ended September 30, 2025 an additional \$101,000 was paid for reclamation bonds to the BC government. \$80,000 of this total was an amount due by March 31<sup>st</sup>, 2025 for the MPD project, and \$21,000 was related to the Aspen Grove claims, purchased in September 2024. In April of 2025, \$21,000 was returned to Kodiak from the Aspen Grove claims vendor, Pinwheel Resources as per the agreement terms.

The Mohave portion of the reclamation bonds is a cost determined to be paid by the Company to the Bureau of Land Management ("BLM") Kingman Field Office in the state of Arizona, USA. This cost determined by the BLM of \$99,286 (US\$68,370), (2025 - \$99,286 (US \$68,370) is for the Company to meet its anticipated reclamation requirements.

For the Kahuna resource property in the territory of Nunavut a reclamation Letter of Credit is recorded in reclamation bonds. This letter is held by the financial institution as security for possible reclamation obligations pursuant to Land Use License KVL315B01.

### **5. EXPLORATION AND EVALUATION ASSETS (continued)**

#### **a. Man, Prime and Dillard Property (MPD)**

In November 2018 Kodiak announced the acquisition of 100% ownership of the MPD copper-gold porphyry project (“MPD”) consisting of the consolidated Man, Prime and Dillard properties in south-central British Columbia. The consideration for MPD consisted of \$100,000 in cash (paid), 360,000 Kodiak shares issued upon closing of the transaction (issued) and an additional \$100,000 in cash payable on April 1, 2019 (paid). A 1.25% to 2% NSR, partly with buy-back rights is payable on three of a total 28 mineral claims. No royalties are payable on the remaining 25 claims.

On April 19, 2021 the Company announced that it had entered into a purchase agreement to acquire a 100% interest in the Axe Copper-Gold Property from Orogen Royalties (“Orogen”). The property is contiguous with the Company’s MPD property.

As consideration for the property, the Company provided the following:

- 950,000 Kodiak shares upon closing of the transaction; (issued)
- A 2% net smelter returns royalty on the Axe property of which 0.5% may be purchased by Kodiak for \$2,000,000 at any time;
- A cash payment will be made to Orogen in the amount equal to the value of 75,000 Orogen shares up to a maximum of \$50,000 upon the completion of 5,000 metres of drilling on the Axe Property (paid-\$40,495)
- A cash payment will be made to Orogen in the amount equal to the value of 200,000 Orogen shares up to a maximum of \$150,000 upon the announcement of a measured or indicated mineral resource estimate of at least 500,000,000 tonnes at a grade of at least 0.40% copper equivalent on the Axe property; and
- A cash payment will be made to Orogen in the amount equal to the value of 250,000 Orogen shares up to a maximum of \$200,000 upon the completion of a feasibility study on the Axe Property.

On April 10, 2023 the Company completed the purchase of mineral claims from Donald Rippon for total consideration of \$150,646. The claims are contiguous with Kodiak’s 100% owned MPD copper-gold porphyry project and includes a net smelter returns royalty of 2% on all claims. The Company has the irrevocable right at any time to purchase one half of the royalty (1% net smelter return) by way of a one-time payment of \$3,000,000.

On September 23, 2024 the Company completed the purchase of a 100% interest in the Aspen Grove copper-gold property from Pinwheel Resources Ltd. for a total of 1,400,000 Kodiak shares with a fair value of \$602,000. The Aspen Grove claims are subject to pre-existing net smelter return royalties (“NSR”) of either 2% or 3%, on certain blocks of claims. Kodiak retains the right to buy back 0.5% or 1% of the NSRs respectively for \$2,000,000 or \$3,000,000 prior to publication of a feasibility study.

On March 6<sup>th</sup>, 2025 the Company completed the purchase of a 100% interest in claims internal to Kodiak’s MPD Northwest claim block (the “Delorme claims”). Consideration for the Delorme claims was 143,349 Kodiak common shares (issued) with a fair value of \$58,773. The vendors will retain a 0.5% net smelter return royalty. Kodiak shall retain the right to buy back the entire royalty at anytime for \$250,000.

In October 2025, the Company entered into a purchase agreement with Eagle Plains Resources Ltd. to acquire a claim package adjacent to Kodiak’s 100% owned MPD project in southern British Columbia. The consideration consisted of 300,000 Kodiak shares upon closing of the transaction (issued) with a fair value of \$228,000, and a net smelter return royalty of 2%. Kodiak will retain the right to buy back 1% of the NSR for \$1,750,000 at any time.

### **5. EXPLORATION AND EVALUATION ASSETS (continued)**

#### **b. Mohave Property**

On March 4, 2019, the Company announced that it had entered into a letter of intent to acquire 100% of the Mohave copper-molybdenum-silver porphyry (“Mohave”) option agreement in Mohave County, Arizona, USA, from Bluestone Resources Inc. (“Bluestone”).

In relation to the acquisition, the Company paid \$50,000 in cash and issued 232,558 common shares at a fair value of \$100,000 upon closing of the transaction, which occurred on May 22, 2019. The Company has committed to issue 100,000 shares upon the public disclosure of a 43-101 resource of the project, 100,000 shares upon the public disclosure of a preliminary economic analysis for the project, 100,000 shares upon the public disclosure of a pre-feasibility or more advanced study for the project, and a 0.5% NSR royalty on the Mohave claims and on a 2km area of interest around the Mohave claims.

Including the royalty newly granted to Bluestone, the Company is committed to a 3.5% net smelter return royalty of which 1% can be bought back for US\$1,000,000 to the original optionors of the Mohave Property. Following the completion of a bankable feasibility study the Company shall pay to the optionors, on an annual basis, the sum of US\$100,000 until the commencement of commercial production. The advance payments will be deducted from any royalty payments payable.

#### **c. Kahuna Property**

By agreements dated November 4, 2014, and April 30, 2017, the Company acquired a 100% interest in the Kahuna Diamond project located in Nunavut, Canada.

The Kahuna Property is currently subject to two separate 2% gross overriding royalties “GOR” on diamonds, and two separate 2% net smelter return royalties (each, an “NSR” and together, the “NSRs”) on all other minerals derived from the property. Pursuant to the Royalty Agreement, 1% of each GOR may be purchased from either of the parties for \$2 million, and 1% of each NSR may be purchased from either of the parties for \$2,000,000.

### 10. FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash and cash equivalents, amounts receivables, reclamation bonds, marketable securities, accounts payable and accrued liabilities and long-term loan. The fair values of these financial instruments approximate their carrying values due to their short terms to maturity and market rates of interest, other than marketable securities which is carried at fair value.

Marketable securities are a Level 1 financial instrument.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following summarizes fair value hierarchy under which the Company's financial instruments are valued:

- Level 1 – fair values based on unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – fair values based on inputs that are observable for the asset or liability, either directly or indirectly; and
- Level 3 – fair values based on inputs for the asset or liability that are not based on observable market data.

The Company examines the various financial instrument risks to which it is exposed and assesses any impact and likelihood of those risks. The Company's risk exposures and their corresponding impact on the Company's consolidated financial instruments are summarized below.

**Liquidity risk** is the risk that the Company cannot meet a demand for cash or fund its obligations as they come due. As at December 31, 2025, the Company had cash and cash equivalents balance of \$7,633,062 (September 30, 2025 - \$9,429,251), to settle current liabilities of \$2,789,939 that are due within one year (September 30, 2025 - \$3,400,401).

The Company intends to finance future requirements from its existing cash reserves together with share issuances, the exercise of options and/or warrants, debt or other sources. There can be no certainty of the Company's ability to raise additional financing through these means.

**Credit risk** is the risk that the counterparty to a financial instrument will fail to meet their payment obligations, thus this risk is primarily attributable to cash and cash equivalents. As at December 31, 2025, the Company had a receivable balance of \$49,864 (September 30, 2025 - \$109,352), which relates to GST receivable from the Federal Government of Canada. There was \$299,622 in Advances and Deposits as at December 31, 2025 (September 30, 2025 - \$114,498) which is made up of predominately of prepayments to vendors.

**Market risk** is the risk that changes in market prices, such as foreign exchange rates, interest rates, and commodity and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. Investments in equity instruments which are classified as fair value through other comprehensive income (loss) and are measured at fair value, are listed on public stock exchanges, including TSX-V and OTC-QX.

### **10. FINANCIAL INSTRUMENTS (continued)**

**Interest rate risk** is the risk that the fair values or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As at December 31, 2025, the Company does not have any interest-bearing loans or liabilities outstanding. All receivable and accounts payable balances are current and as such, are not subject to interest, so its exposure to interest rate risk is insignificant.

**Currency risk** relates to the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in foreign currency. As at December 31, 2025, the Company did not have any material monetary assets or liabilities denominated in a foreign currency and consequently is not exposed to significant foreign currency risk.

**Price Risk** is the risk that the Company is exposed to with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on profit or loss and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices of resources, individual equity movements, and the stock market to determine the appropriate course of actions to be taken by the Company.

### **11. MARKETABLE SECURITIES**

As at December 31, 2025 and September 30, 2025 the Company held Nil marketable securities. All of the remaining shares were sold during fiscal 2025. Upon disposal of the shares, the Company recognized a realized loss of \$358,536. The Company transferred the realized loss of \$358,536 from accumulated other comprehensive income ("AOCI) to deficit

### **12. CAPITAL DISCLOSURES**

The Company's objective, when managing capital, is to ensure sufficient resources are available to meet day-to-day operating and exploration requirements and to safeguard its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders.

The Company is not subject to externally imposed capital requirements. There were no changes in the Company's approach to capital management during the period. In the management of capital, the Company includes the components of shareholders' equity, as well as cash and cash equivalents.

### **13. SEGMENTED INFORMATION**

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker, or decision-making group, in deciding how to allocate resources and in assessing performance. All of the Company's operations are within the mineral exploration sector in Canada and the USA (Note 5). No material assets and revenue exist in the USA for separate presentation, other than what is included in Note 5.
